

India expresses concern over reports of shelling near Ukraine's Zaporizhzhia nuclear power plant

UNITED NATIONS, AUG 12 /-- India has expressed concern over reports of shelling near the spent fuel storage facility of the Zaporizhzhia Nuclear Power Plant in Ukraine that could have "potentially serious consequences" for the people and called for mutual restraint to ensure that safety and security of nuclear facilities in the war-torn country are not endangered.

The head of the UN's nuclear watchdog told an emergency meeting of the Security Council on

Thursday that fighting close to the Zaporizhzhia nuclear power plant in Ukraine had caused some damage to the facility and called for an immediate inspection mission to be allowed to visit the plant. "We continue to carefully follow developments regarding the safety and security of Ukraine's nuclear power reactors and facilities," India's Permanent Representative to the United Nations, Ambassador Ruchira Kamboj, said at the open meeting in the Security

Council on the situation at the Zaporizhzhia Nuclear Power Plant. "India attaches high importance to ensuring the safety and security of these facilities, as any accident involving nuclear facilities could potentially have severe consequences for public health and the environment," she said. Kamboj said India expresses its concern over the reports of shelling near the spent

fuel storage facility of the Zaporizhzhia NPP. "We call for mutual restraints so as not to endanger the safety and security of nuclear facilities," she said.

Earlier, Director General of the International Atomic Energy Agency (IAEA) Rafael Mariano Grossi told the UNSC meeting that on August 5, the Zaporizhzhia plant -- Europe's largest -- was subjected to shelling,

which caused several electrical switchboard and explosions near the power shutdown. (PTI)
