## India sustaining growth momentum, fastest growing eco for 4 years: Sitharaman

NEW DELHI, MAY 31 (PTI) Finance Minister Nirmala Sitharaman on Friday said India is sustaining its GDP growth momentum as the fastest-growing economy for the fourth year in a row, aided by manufacturing, services and farm sectors. She said India's manufacturing activity has been "good" during the January-March period, which has helped clock a GDP growth of 7.4 per cent during the quarter and 6.5 per cent for the full 2024-25 fiscal. "India is sustaining the growth and it is the fastest growing economy now for the fourth year continuously thanks to the work of small, medium, and large industries; industries which are coming in and making sure our manufacturing capacity, our service capacity are all intact. Agriculture has also sustained us even during Covid and subsequently," Sitharaman said. The 6.5 per cent GDP growth for FY'25 comes on a high base of FY'24 when the economy grew at 9.2 per cent. The 7.4 per cent growth in the March quarter was also on a high base of 8.4 per cent in FY'24.

Speaking at the Lakshmi Pat Singhania -IM Lucknow National Leadership Award, the Minister said during the January-March quarter there were views that industry was not investing enough, capacities were not increasing and questioned its impact on the economy. "I'm glad, India's industry ... the manufacturing activity

have all been good during Q4 of 2024-25 and there was a real GDP growth of 7.4 per cent in Q4 alone. As a result, for the entire financial year of 2024-25 (April-March), the real GDP growth was 6.5 per cent," Sitharaman said. During the fourth quarter of FY'25, manufacturing output grew at 4.8 per cent, as against 11.3 per cent in the same quarter of FY'24. The services sector expanded 7.3 per cent in the March quarter, while the farm sector growth was 5.4 per cent. Sitharaman said every year the Government is working to remove regulatory difficulties and bring in soft-touch regulation, which will allow people to do business without suspicion. She said she is open to receiving suggestions for removing hurdles to business in easing regulatory hurdles. "We are at that part of India's history where it just requires all of us to have confidence in our country's abilities and belief that we can definitely deliver that goal... how long more are we going to say we are a developing country. "When our own people are going all over the world and working at leadership levels in various sectors. It's time for all of us to get out of the suspicion that we have in our minds, will India be able to do, will India be able to reach? Yes, we can," she said. She said in achieving the goal of becoming a developed nation by 2047, the country needs to come out of the evil of petty corruption.(PTI)

## Govt cuts import duty on crude edible oils to 10 pc; move to cool prices, protect local industry

NEW DELHI, MAY 31 --/ The Centre on Friday reduced the basic custom duty on crude palm oil, crude soyabean oil and crude sunflower oil to 10 per cent, a move aimed at bringing down the retail prices of cooking oils and protecting domestic processors. Earlier, the duty on these three crude edible oils was 20 per cent. India imports more than 50 per cent of its domestic edible oil requirement. India imported 159.6 lakh tonnes of edible oils during the 2023-24 oil marketing year (November to October), valuing Rs 1.32 lakh crore. A notification in this regard was issued by the finance ministry on Friday with immediate effect.

When contacted, Union Food Secretary Sanjeev Chopra said the government has slashed the basic custom duty on crude edible oils to 10 per cent from 20 per cent. Industry body Solvent Extractors Association of India's (SEA) executive director B V Mehta said the basic custom duty on crude palm oil, crude soyabean oil and crude sunflower oil has been reduced to 10 per cent from the earlier 20 per cent. The effective import duty (including the basic custom duty and other charges) on these three products will now be 16.5 per cent as against the 27.5 per cent earlier.

The basic custom duty on refined oil remains unchanged at 32.5 per cent. At present, the effective duty on refined oils is 35.75 per cent. Industry bodies SEA and the Indian Vegetable Oil Producers' Association (IVPA) welcomed the decision. They have been demanding increasing the duty difference between

the crude and refined edible oils to protect the domestic processors.

In a late-night statement, SEA president Sanjeev Asthana said, "The government's decision to increase the duty differential between crude and refined oils from 8.25 per cent to 19.25 per cent is a bold and timely move. It will discourage imports of refined palmolein and shift demand back to crude palm oil, thereby revitalising the domestic refining sector."

The reduction in duty on crude oil will help reduce domestic prices, benefiting consumers, he added. Mehta pointed out that imports of refined palm oil have risen of late, because it is cheaper than the crude palm oil. India imports palm oil from Malaysia and Indonesia.

Soyabean oil comes from Brazil and Argentina. IVPA president Sudhakar Desai said, "We thank the government for accepting the IVPA recommendation to increase the duty differential between crude and refined edible oils to 19.25 per cent." It is a significantly bold move towards ensuring Make in India and also protecting the sector from the influx of refined oils, causing capacity injury to the vegetable oil sector, Desai said.

"This is a win-win situation for vegetable oil refiners and consumers, as the local price will go down due to the lower duty on crude oils," Mehta said. On September 14, 2024, the basic custom duty on crude soyabean oil, crude palm oil and crude sunflower oil was raised from zero per cent to 20 per cent. (PTI)

## China's factory activity contracts in May

BEIJING, MAY 31 --/ China's factory activity contracted in May, according to an official survey released on Saturday, although the decline slowed from April as the country reached a deal with the US to slash President Donald Trump's sky-high tariffs. China's purchasing managers index rose from 49.0 in April to 49.5 in May, the National Bureau of Statistics said. PMI is measured on a scale from 0 to 100, where 50 marks the cutoff between expansion and contraction.

Meanwhile, the manufacturing index showed growth in the sector, although the index measuring new orders remained under 50 despite some improvement. National Bureau of Statistics senior statistician Zhao Qinghe said some companies with U.S. business reported accelerated resumption of foreign trade orders, and there was an improvement in import and export conditions. The US-China deal, reached earlier this month, cuts Trump's tariffs from 145% to 30% for 90 days, creating time for negotiators from both sides to reach a more substantive agreement. China also reduced its taxes on US

goods from 125% to 10%. But the remaining tariffs are still higher than they were before Trump took office, and businesses and investors face uncertainty about whether the truce will last.

Trump said Friday that he will no longer be Mr. NICE GUY with China on trade, declaring in a social media post that the country had broken an unspecified agreement with the United States. He later said in the Oval

Office that he will speak with Chinese President Xi Jinping and hopefully we'll work that out, while still insisting China had violated the agreement. Over the past week, tensions between Beijing and Washington also intensified after the U.S. said it would start revoking visas for Chinese students studying in the country. China has lodged a protest with the U.S. over the matter, calling the decision unreasonable. (AP)

## Steel, ferro alloys industries seek Bengal CM's help to reduce 'tariff hike' by DVC

KOLKATA, MAY 31 --/ Trade bodies representing the steel and ferro-alloy industry in West Bengal have sought Chief Minister Mamata Banerjee's help to reduce the alleged steep hike in power tariff by Damodar Valley Corporation (DVC), which they claim would lead to a shutdown of operations.

DVC, however, dubbed the claims as factually inaccurate. In a joint statement, the Damodar Valley Power Consumers Association, the Steel Re-Rolling Mills Association of India and the West Bengal Sponge Iron Manufacturers Association claimed that the revised power tariff approved by the West Bengal Electricity Regulatory Commission (WBERC) for DVC sets the rate at Rs 4.64 per unit for 2025 26. Additionally, an extra Rs 1.36 per unit is being charged toward arrears accumulated between 2014 and 2020, raising the effective tariff to Rs 6 per unit, it added. They also claimed that DVC imposed extra charges through Energy Charge Rate (ECR) and Monthly Variable Cost Adjustment (MVCA), amounting to another 50 paise per unit. "The net chargeable tariff to industries will now be around Rs 6.80 per unit, a 30 per cent increase, which is unaffordable and threatens the survival of our units," the appeal stated. "We are not against paying dues, but request that the Rs 1.36 per unit past arrears be recovered over the next six years to avoid tariff shocks," it said.

The industry bodies also alleged disparity in rates, stating that DVC supplies power to Jharkhand consumers at Rs 4.42 per unit, and demanded a forensic audit of variable charges such as the Energy Charge Rate (ECR) and Monthly Variable Cost Adjustment (MVCA).

DVC officials maintained said the average power cost in Jharkhand is Rs 5.61 a unit. "West Bengal is the second-largest contributor to India's secondary steel production, ferro alloys, pig iron, and pellets, and third in sponge iron output. Collapse of this sector will endanger the livelihoods of lakhs of people," the industry bodies warned. In a statement, DVC rejected the claims as factually inaccurate and selectively presented. It said the tariffs are determined by respective state regulatory commissions WBERC for West Bengal and JSERC for Jharkhand and not unilaterally fixed by DVC. According to the utility, the tariff in West Bengal remained largely unchanged since the 2018-19 fiscal due to prolonged litigation initiated by the same associations, which the Supreme Court declared untenable in 2018. The arrears component became payable only after the apex court

closed the matter earlier this year, and ordered the payment within two months. We have complied fully with regulatory and court directions and shown great patience through years of litigation, DVC said, adding that it continued power supply despite escalating input costs. The utility defended the current rates as "cost-reflective and justified" under WBERC's approval, and said it has floated the idea of a common regulator to ensure tariff uniformity across states. DVC also said that it cannot compromise on financial sustainability, especially after absorbing costs during a period of frozen tariffs. Calling it a crisis, the trade bodies urged the CM to engage with WBERC and DVC at the earliest. "Your timely intervention will be instrumental in resolving this issue and saving these crucial industries in the state," the statement added. (PTI)
